WELCOME TO THE ZEROTECH FAMILY!

Customer First - We listened to you and came up with a family of optics that will satisfy the needs of our most discerning and experienced customers.

Backed by Experience - ZeroTech enjoys 60 years of experience in the Optics Market supplying high quality brands to retailers throughout Australia and the Asia Pacific.

Built for the Australian Shooter - Designed and built to endure the harsh conditions of the Australian bush and the exacting demands of the precision shooter.

Lifetime Warranty - Be safe in the knowledge that your scope is backed by our Triple A Lifetime Warranty: **'ANY OWNER, ANY PROBLEM, ALWAYS COVERED'**

LIFETIME WARRANTY

BACKED FOR LIFE!

Be safe in the knowledge that your scope is backed by our **Triple A Lifetime Warranty*:**

- Fully transferable, covers accidental damage as well as defects in materials and workmanship.
- No receipt or warranty card is required.
- We will repair or replace product with equal or similar value and/or specifications.
- We will return product to you at no charge.

*ZT AAA warranty does not cover any intentional loss or damage to ZeroTech products.

LIFETIME WARRANTY

'ANY OWNER, ANY PROBLEM, ALWAYS COVERED'

THRIVE RED DOT OPTIC (RDO) FEATURES

THRIVE RED DOT OPTIC

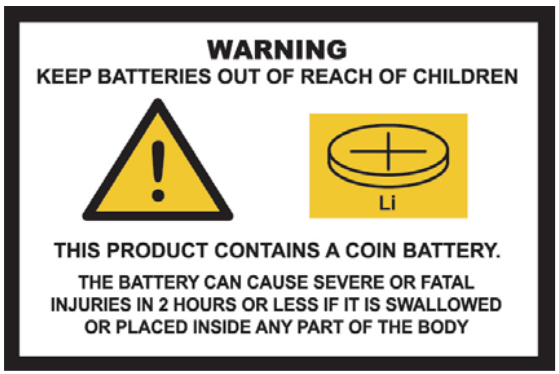

BATTERY INSTALLATION

Insert CR2032

NOTE: ***Remove and discard the plastic insulator.***

WARNING – KEEP BATTERIES (whether the battery is new or used) OUT OF REACH OF CHILDREN

Zerotech rifle scopes and optics with a reticle illumination feature contain coin batteries. Products containing coin batteries must be kept out of reach of children. The battery can cause severe or fatal injuries in 2 hours or less if it is swallowed or placed inside any part of the body. If you suspect your child has swallowed or inserted a button battery immediately call the **24-hour Poisons Information Centre on 13 11 26 (Australia)** for fast, expert advice.

WINDAGE AND ELEVATION ADJUSTMENTS

Every ‘click’ on the windage or elevation turret will adjust the point of impact by 1 MOA = 1” at 100y.

Use the top of the turret caps to make the adjustments on the windage and elevation turrets.

MOUNTING YOUR THRIVE RED DOT OPTIC TO YOUR FIREARM

The Thrive RDO is designed to be compatible with most Weaver and Picatinny style bases and/or rails.

Use a T15 Torx driver to loosen the mount interface cross bolt several revolutions or until the mount interface or the Thrive RDO can easily slip over the Picatinny or Weaver base on your firearm. Please note, the mount interface cross bolt needs to engage the slot on the base.

Once the mount interface has made proper engagement with the base, use slight forward pressure to push the RDO forward towards the muzzle of your firearm. Maintain forward pressure whilst tightening the cross bolt with the T15 driver.

The purpose of applying forward pressure to the RDO is to ensure a secure fit against the front face of the base slot so the RDO doesn't slip forward under recoil.

Ensure the interface cross bolt is torqued to 25 in lbs (approx. 2.8 NM). Check to ensure the interface cross bolt remains tight after use.

PROPER CARE OF YOUR THRIVE RED DOT OPTIC

- ALWAYS wipe fingerprints from the lenses using only the Zerotech lens cloth provided. Do not use other materials to wipe the lenses as this may result in damage to the lens coatings. If debris is present on the lenses, use a lens brush to remove the debris before wiping with a lens cloth.
- ALWAYS check the mount interface is tight after each shooting session.
- AVOID solvents and cleaner sprays coming into contact with your Thrive RDO. If you accidentally spray solvent or cleaner onto your RDO, wipe off immediately.
- AVOID storing your RDO for long periods with the battery installed. Remove the battery for long term storage.
